Projects

- Share Wear Bd:** E-commerce website for buying and selling second-hand dresses. [Live Url](#) [Git Repo-client](#) [Git Repo-server](#)
 - In this React.js application, implemented admin, seller and buyer authorization. Admin can verify seller, delete any post, any buyer or seller. The Seller can upload products and the Buyer can report, book and complete the purchase.
 - Site has been made responsive using Tailwind CSS. Stripe payment system has been incorporated. Also implemented JWT authentication, Private route, React query, React hook form etc.
 - Technologies:** React.js, Tailwind CSS, daisyUI, Node.js, MongoDB, Vercel.
- Doc Service:** Service and Review based website for a doctor. [Live Url](#) [Git repo-client](#) [Git Repo-server](#)
 - React.js has been used in the UI part where patients can find details of a service and see other's reviews about that service. Patients can also add or update his own review.
 - Implemented user authentication and private route, context API. Also made responsive using Tailwind CSS.
 - Technologies:** React.js, Firebase, Tailwind CSS, Node.js, MongoDB.
- Tech Learning Bd:** Edutech site for technology learning and practicing. [Live Url](#) [Git Repo-client](#) [Git Repo-server](#)
 - Using Bootstrap the site has been made responsive where user can see details of a course and download as pdf.
 - For getting premium access one must login to the site. Besides username and password, user can also log in using Google, GitHub.
 - Technologies:** Bootstrap, Firebase, React.js, Node.js, MongoDB

Education

Mawlana Bhashani Science and Technology University

Year: [2010-2015]
